Summary

Experienced Software Engineer with a passion for crafting web applications.
My journey in software engineering, has honed my skills in planning, designing, and delivering dynamic solutions. I am dedicated to staying on the cutting edge of current technologies, and I thrive in collaborative environments where we can build efficient user-centric applications. Eager to contribute to your team's triumphs.

Skills

- Javascript, TypeScript, Ruby/Rails, Python
- React, React-Native, Next.js, Redwood.js, FastAPI, Flask
- Docker, AWS, PostgresSQL, MySQL

Experience

Software Engineer III, ZEAL – May 2021 - Sept 2023

- Consulting firm dedicated to partnering with cross-functional teams to provide top-tier, user-centric solutions for clients.
- Instrumental in developing and maintaining internal tools critical for streamlining operations and enhancing team productivity.
- Transformed design mock-ups into interactive and responsive web components, guaranteeing a fluid user experience.
- Contributed to the client's mobile development team by implementing features and enhancements to improve app functionality and user engagement, including addressing critical issues such as resolving a bug related to user authentication refresh tokens. This bug had previously prevented users from logging back in after 30 days, resulting in a significant improvement of 12% in user retention rates.
- Played a crucial role in developing an MVP for the startup within a condensed timeline of just one month. This initial product launch subsequently empowered them to secure their next round of funding.

Full-Stack Developer, C47 Studios – Jan 2021 - May 2021

- Responsible for spearheading the development of a streaming platform MVP for a startup, including a comprehensive redesign of the landing page to enhance user engagement and retention.

Full-Stack Developer, Alexandria – Oct 2019 - Aug 2020

- Responsible for the design and architecture of Full Stack Applications built on Open Index. Protocol, an open source specification for data publishing, file distribution, and for facilitating direct payments. Built on blockchain technology.

Education

- California State University Chico | Chico, CA – Bachelor Degree, 2017
- FreeCodeCamp: Responsive Web Design - 2018
- FreeCodeCamp: Javascript Algorithms and-Data Structures - 2019
- CS50x: Introduction to Computer Science - 2019
- Udemy: Modern React w/ Redux - 2019
