Software Engineer

A cross-functional software engineer proficient in JavaScript, HTML, CSS, Ruby on Rails, and React-based frameworks like Next.js. With 5 years of experience, I excel at converting wireframes into pixel-perfect interfaces, refactoring legacy codebases, and translating business objectives into lucrative software. I improved team efficiency by 28% and increased user retention rates by 34%. Developed an MVP in one month, securing the next round of funding for a startup. Seeking a full-stack role on a product team that pushes technological and creative boundaries.
